This table has been produced as a guide only, using information obtained from individual vaccine suppliers. The information is correct at the time of publication, however, healthcare professionals are advised to contact individual vaccine manufacturers for the most current information.

*GlaxoSmithKline (GSK) recommends that healthcare professionals contact Customer Services Tel: 0800 221 441 for confirmation of the potential latex content of individual batches of vaccine. GSK cannot guarantee that the raw materials obtained from external suppliers did not come in contact with minute amounts of other ingredients and/or other materials during their manufacturing process.
