

CHALLENGES IN TRAVEL MEDICINE

The Faculty of Travel Medicine is proud to present this programme, which provides an absolute feast of exciting speakers addressing topical and challenging issues across a wide range of travel health practice.

Expect to be entertained as well as informed, so please book early as demand is likely to be very high.

Topics include:

- Influenza, past present and future
- Untreatable STIs, scaremongering or reality?
- The hottest news in travel medicine
- Viral encephalitis - many causes, few vaccines
- Yellow fever vaccine - addressing the challenging questions
- An immunocompromised traveller, a day in the life of a consultant in Travel Medicine
- OK for TV celebrities? The real world of 'bush tucker' and what it can do to you!

This meeting is initiated and funded by Emergent BioSolutions. The company is exhibiting at the meeting but has had no input into the educational content which has been developed independently by the Faculty of Travel Medicine at the Royal College of Physicians and Surgeons of Glasgow.

Saturday 27 June 2020

Venue

SOAS, University of London
10 Thornhaugh Street, Russell Square,
